

# Looking for a **pathway** to university?

**Know more. Do more.**

# An AQF diploma or advanced diploma can qualify you for entry to a Griffith University bachelor degree

## Improve your entry score

If you hold a completed Australian Qualifications Framework (AQF) Advanced Diploma or Diploma you can use it to gain entry when applying for university study through the Queensland Tertiary Admissions Centre (QTAC).

If the assessment for your completed AQF Advanced Diploma or Diploma is competency-based, the ranks below will apply. You can improve your rank if you sit the Special Tertiary Admissions Test.

Overall Position (OP) and Rank conversions		
Qualification	QTAC selection rank	Approximate OP
Diploma*	82 (STAT = 91)	9 (STAT = 5)
Advanced Diploma^	91 (STAT = 98)	5 (STAT = 2)

\* Australian Qualifications Framework Level 5    ^ Australian Qualifications Framework Level 6

**Note.** Conditions apply (refer *2016 QTAC Guide*, page 36). Approximate OPs calculated using the 2014 conversion table (refer *2016 QTAC Guide*, page 18). The improved rank quoted is the Diploma/Advanced Diploma in combination with the maximum STAT score.

## Meet the English prerequisite

Your completed diploma or advanced diploma can be used to meet the requirement of four sound achievements (4, SA) in English, which is a prerequisite for many Griffith degrees.

Depending on the degree, other subject prerequisites may also apply. You will need to meet these in addition to the English prerequisite. Search for more information about the prerequisites for your chosen degree at [degrees.griffith.edu.au](http://degrees.griffith.edu.au)

## Get credit towards your degree

Upon being accepted to Griffith, you may apply for credit, which can reduce the time it will take to complete your bachelor degree. Credit may apply if your diploma or advanced diploma covered similar content to that in the bachelor degree. Visit [griffith.edu.au/credit](http://griffith.edu.au/credit) to find out more.

## Take the next step in your career

Search [degrees.griffith.edu.au](http://degrees.griffith.edu.au) to find the degree that suits you.
